

Notes:

1. Site description.

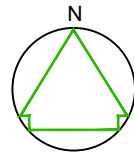

The site is the south section of an old agricultural field. The north field section was developed for housing a number of years ago. During this development, the south section was utilised as a storage area.

Consent is now being sought for a proposal to develop this section for housing. There are no trees within the site, a remnant hedgebank and native hedge runs along its south and west boundaries.

For the purposes of protecting the remnant hedge-line and hedgebank feature, a protective barrier shall be installed along the bank base.

2. Protective barrier specification:

Heras fencing panels on rubber feet shall be used to protect the hedge and earth bank.

Scale 1:500

KEY

- Remnant hedgebank and hedge
- Positioning of protective barriers
